SKATING ON CAMPUS:
Skateboarding is a popular sport, good exercise and an inexpensive way to get around, but it can be dangerous.

Serious skateboarding injuries occur when a skater loses control and falls or runs into a motor vehicle, pedestrian, another skateboarder or bike while skating to or from class.

Here are some things College Police would like you to know.

Skateboarding is prohibited on campus.
- This includes riding scooters, boards or using skates or roller blades.
  (84.12(e) SDMC)

When off campus skateboarders are considered pedestrians and can receive traffic citations.
Violations include:
- Skating in the street (84.12 (a) SDMC)
- Failing to yield to pedestrians on sidewalks. (84.12 (c) SDMC)
- Crossing against “Don’t Walk” signals at intersections. (21456 (b) CVC)

SIMPLE SAFETY TIPS
- Obey all traffic signs and signals.
- Walk with skates/skateboards while on campus
- Push “Pedestrian Walk “button at crosswalks.
- Never “hitch” a ride by grabbing onto a moving vehicle.

The San Diego Community College Police Department has adopted a community policing philosophy. This has been provided as a service to help you stay safe on campus and have a positive educational experience.
